REDEFINE EXCELLENCE IN FITNESS EQUIPMENT

As the official supplier for the Olympic Games, SHUA is synonymous with top-tier performance and reliability. Our dedication to innovation and quality has propelled us to become a mainboard listed company and an ACSM certified partner, a testament to our enduring success and trustworthiness in the industry. Choose SHUA for unparalleled partnership, experience the difference that excellence makes in your fitness business journey.

SHUHUA SPORTS CO.,LTD.

OFFICIAL FITNESS EQUIPMENT SUPPLIER

SHUA has become a leading player in the fitness equipment industry, earning the prestigious role of official fitness equipment supplier for the Beijing 2022 Winter Olympics and Paralympics, including the Olympic and Paralympic Villages' fitness centers. This historic choice makes SHUA the first Chinese fitness equipment brand to be featured in the Olympics.

CARDIO

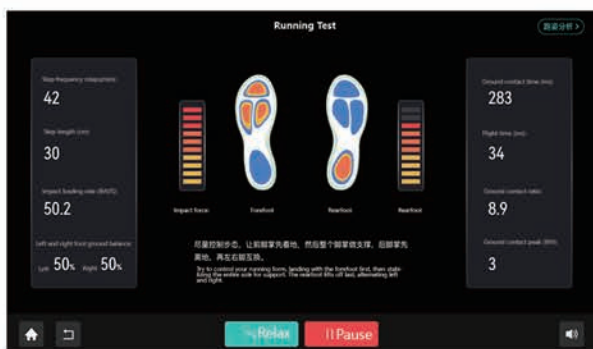

SHUA cardio series encompasses treadmills, elliptical trainers, exercise bikes, and rowing machines. With decades of research in ergonomics and human biomechanics, our cardio products ensure the utmost level of performance, safety, and durability.

S2 SERIES

Dynamic Adaptive Running Deck

The S2+ New Variable Resistance Treadmill adopts air pressure dynamic running feel control technology, offering six running feel modes: rubber track, cement pavement, soft soil, asphalt pavement, flat grassland, and intelligent adaptation. With a one-click quick switch, it provides a more tailored running experience for different runners.

Scientific Gait Monitoring

The S2+ features an intelligent sensing treadmill that continuously monitors running posture data, including impact force, left-right foot balance, cadence, stride length, and ground contact-to-air time ratio. It provides runners with guidance for posture optimization, supporting scientific running.

Laser Safety Shield

The S2+ utilizes ToF (Time of Flight) laser distance sensing technology, combined with ST's third-generation FlightSense algorithm. It features automatic stain calibration and resistance to glass cover interference. The system can monitor whether the runner is within a safe zone. If the runner exceeds the safe range, it triggers a safety alert sound to ensure exercise safety.

Take Your Cardio
to the Next Level

NEW DIGITAL CONTROL SYSTEM

Introducing the SHUA Vital OS Console, a state-of-the-art system that delivers an unparalleled workout experience

Seamlessly syncing with your smartphone, it enhances your workout with personalized routines.

With easy access to essential information, our innovative interface ensures a focused and productive session.

Embark on virtual adventures and explore iconic destinations, all from the VitalOS digital console.

STRENGTH

SHUA offers a comprehensive strength series that includes selectorized and plate-loaded equipment. Covering both upper and lower body exercises, it provides every trainer with an unparalleled strength training experience.

88 APEX SERIES

Unleash the extraordinary with SHUA's 88 Apex Series, where cutting-edge ergonomic design, advanced intelligence, and innovative craftsmanship converge seamlessly. Meticulously tailored for premium fitness facility, ensuring an unparalleled fitness experience for members demanding the very best.

Innovative Craftsmanship

Leading the industry with advanced laser engraving technology on the surface of plastic components. Each texture undergoes over 30 meticulous engravings, creating a refined finish that's visually stunning and tactile. Combined with sleek black titanium and brushed silver, it elevates your fitness facility to a premium level.

Optimal Ergonomics

Developed by the SHUA R&D team in collaboration with world-class bodybuilding champions, the 88 Series represents a pinnacle in the autonomous design of professional-grade training equipment.

IGR ERGONOMIC CERTIFICATION

The SHUA 88 Strength Equipment Series has received the prestigious IGR Ergonomic Certification in Germany, highlighting our commitment to comfort, safety, and performance. With SHUA, experience the perfect blend of innovation and quality for your fitness journey.

77 HYBRID SERIES

77 Hybrid series unveils a groundbreaking fusion of selectorized and plate-loaded dual-weight systems, seamlessly integrated into an eye-catching X-shaped design. Crafted to meet the diverse needs of both starters and seasoned athletes, the 77 Hybrid Series stands as a testament to cutting-edge engineering and uncompromising performance.

Dual-Weight Systems

Featuring a pioneering combination of selectorized and plate-loaded dual-weight systems, coupled with a split-type design that allows for unilateral training.

X-Shaped Innovative Design

Distinguished by its unmistakable X-shaped silhouette, the 77 Hybrid Series combines a stylish aesthetic with enhanced stability, making your gym stand out from the crowd.

UNLOCK POTENTIAL**

69 STANDARD SERIES

69 Standard Series, where ergonomic design, top-tier durability, and unmatched user experience converge seamlessly. Designed for individuals seeking to push their limits and achieve a higher level of strength training.

Optimized Muscle Activation

With exceptional human biomechanical design, 69 Standard Series offers the perfect movement trajectory and distribution of resistance, maximizing muscle activation.

Precision Manufacturing

69 Standard Series is crafted with meticulous precision, guaranteeing stability and safety throughout the exercise trajectory, delivering the ultimate strength training experience for users.

User-friendly Design

Products in the 69 Standard Series are designed with cleverly integrated features, prioritizing user experience to ensure exercisers enjoy a comfortable and efficient workout.

89 PERFORMANCE SERIES

89 Performance Series encompasses both free weight and plate-loaded equipment, meticulously developed to meet high-intensity functional and strength training needs of professional athletes, military personnel, and elite trainers.

Optimal Muscle Engagement

Various plate-loaded products in the 89 Series incorporate designs such as split-type designs and multiple grips. These designs are engineered to assist trainers in achieving targeted and comprehensive muscle activation.

Unparalleled Quality

Crafted from premium-grade steel and rigorously tested beyond industry standards by 7 to 10 times, each product in the 89 Series is engineered to withstand the toughest of workouts.

68 CORE SERIES

68 Core Series integrates user-friendliness, space-saving design, exceptional durability, and ergonomic excellence, which is perfect for beginners who just embarking on their strength training journey.

Space-saving Design

Every product of 68 Core Series is crafted with a compact, space-saving design. Even in the limited space of your fitness facility, you can still discover a multitude of unparalleled equipment layout options that go beyond your expectations.

Unmatched Durability

68 Core Series is meticulously crafted from high-quality alloys and steel, which could withstand the rigorous demands of daily use.

Craftsmanship Excellence

68 Core Series exemplifies our dedication to superior craftsmanship by seamlessly integrating advanced welding techniques, ensuring optimal safety, stability, and enhanced visual appeal in our products.

BENCH & RACK FOUNDATION SERIES

Whether for free weight exercises or guided lifts, the Bench & Rack Foundation Series delivers unmatched stability, safety, and support. Designed with both structural integrity and ergonomic precision, it accommodates users of all sizes and training styles—from beginners to strength professionals. With adjustable angles and reinforced welding, every rep is anchored in confidence and efficiency.

Professional Load Capacity

Built for heavy-duty lifting, these benches and racks offer exceptional load-bearing capacity and long-term durability for serious strength athletes.

Enhanced Stability Construction

Wide bases, high-strength steel welds, and anti-slip foot pads deliver superior equipment stability and robust support during intense workouts.

Compatible & Versatile System

Engineered for compatibility with Olympic bars, dumbbells, and accessories, this series adapts easily to commercial gyms, personal studios, and home setups.

Multi-Position Adjustability

Backrests and seats feature multi-angle adjustments for seamless transitions between flat, incline, and decline positions—ideal for varied strength routines.
